If cleaning becomes necessary, disconnect the appliance from the power source and wipe exterior with a damp cloth. Clean mirror surfaces with a glass cleaner. Do not light until you are certain mirror is completely dry.

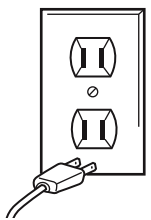
If any abnormal condition occurs, unplug the lighted mirror, allow it to cool, and return it to an authorized service center for repair.

STORAGE

BE SURE DIRECT SUNLIGHT DOES NOT STRIKE MIRROR WHEN LEFT UNATTENDED. Allow to cool to room temperature before storing. Place in cool, dry area out of reach of children, and where mirror will not be damaged.

WARNING:
IF YOU THINK THE POWER IS OFF WHEN THE SWITCH IS OFF, YOU'RE WRONG.

KEEP AWAY FROM WATER



Everybody knows that electricity and water are a dangerous combination. But did you know that an electrical appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.
